INTERNATIONAL AS PSYCHOLOGY

Unit 2 Biopsychology, Development and Research Methods 1

Thursday 16 January 2025 07:00 GMT Time allowed: 1 hour 30 minutes

Materials

For this paper you must have:

- a calculator, which you are expected to use where appropriate.

Instructions

- Use black ink or black ball-point pen.
- Fill in the boxes at the top of this page.
- Answer **all** questions.
- You must answer the questions in the spaces provided. Do not write outside the box around each page or on blank pages.
- All working must be shown.
- If you need extra space for your answer(s), use the lined pages at the end of this book. Write the question number against your answer(s).
- Do all rough work in this book. Cross through any work you do not want to be marked.

Information

- The marks for questions are shown in brackets.
- The maximum mark for this paper is 90.

For Examiner's Use	
Question	Mark
A	
B	
C	
TOTAL	

Section A: BiopsychologyAnswer **all** questions in the spaces provided.Only **one** answer per question is allowed.

For each multiple-choice question completely fill in the circle alongside the appropriate answer.

CORRECT METHOD

WRONG METHODS

If you want to change your answer you must cross out your original answer as shown.

If you wish to return to an answer previously crossed out, ring the answer you now wish to select as shown.

**0 1**

Using your knowledge of hemispheric lateralisation, identify the brain centres which are usually only located in the left hemisphere.

Shade **one** box only.**[1 mark]****A** Language centres☐**B** Motor centres☐**C** Somatosensory centres☐**D** Visual centres☐**0 2**

Describe what is meant by inhibition in the process of synaptic transmission.

Section B: Cognitive DevelopmentAnswer **all** questions in the spaces provided.**0 5**

What is meant by scaffolding in cognitive development?

[2 marks]

0 6

Reginald is learning how to read.

Using your knowledge of scaffolding, explain how Reginald's father could help Reginald learn to read.

[3 marks]

0 7

Describe the role of the mirror neuron system in social cognition.

[3 marks]

0 8

Eve watches Pete yawn and starts yawning herself.

With reference to the mirror neuron system, briefly explain why Eve starts yawning.

[2 marks]

0 9

Describe the procedure of **one** study that investigated violation of expectation in very young children.

ANSWER IN THE SPACES PROVIDED**

Section C: Research Methods 1

Answer **all** questions in the spaces provided.

Researchers wanted to investigate the attitudes of 16–18-year-old students towards environmental issues. They created a questionnaire that contained both open questions and closed questions. The researchers carried out a pilot study of the questionnaire.

After the pilot study, they selected 40 students aged 16–18 from a local school to take part in their investigation.

1	4
---	---

Briefly explain **one** reason why the researchers carried out a pilot study of the questionnaire.

[2 marks]

1	5
---	---

Identify the population **and** the sample in this investigation.

[2 marks]

Population _____

Sample _____

1	6
---	---

Write an open question the researchers could have used in their questionnaire.

[1 mark]

Turn over for the next question

1 7

One of the questions asked the 16–18-year-old students to rate their attitudes towards global warming on a scale of 1–10, where 1 meant not very important and 10 meant most important.

The results are shown in **Table 1** below.

Table 1 Frequency of rating scores on the attitudes scale (1–10).

Rating score of attitude scale (1–10)	Frequency
1	2
2	1
3	1
4	1
5	2
6	3
7	10
8	11
9	7
10	2

1 7. 1

Using the data from **Table 1**, draw a line graph. Provide a title for your graph, and fully label both axes.

[4 marks]

Title _____

Turn over for the next question

1 7 . 2

Using the data from **Table 1**, calculate the mean, median and mode.
Show your workings.

[6 marks]

Mean _____

Median _____

Mode _____

1 7 . 3

Using the mean, median and mode you calculated in your answer to Question **17.2**,
what do these statistics tell us about the distribution of the frequency ratings?

[4 marks]

To gain a better understanding of attitudes towards environmental issues, the researchers carried out an unstructured interview with some of the 16–18-year-old students.

1	8
---	---

What is meant by an unstructured interview?

[2 marks]

1	9
---	---

1

Explain why having the right to withdraw is important in the design and conduct of psychological studies.

[3 marks]

Question 19 continues on the next page

1 9 . 2

Explain how the researchers could have ensured that the 16–18-year-old students knew that they had the right to withdraw from the interview.

[3 marks]

2 0

At the end of each interview, the researchers conducted a debrief with the student.

Explain what information the researchers should have included in the debrief.

[3 marks]
