Farah is depressed. She is talking to her mum.

Farah says, "I failed my last chemistry test, so I am not doing my chemistry homework this week. I am not clever enough, so I am not going to apply for university."

Her mum replies, "Don't say that. You did well on your biology test."

Farah says, "The biology result was just luck. Universities only want the best students anyway. Average students like me don't have a chance."

Use your knowledge of Beck's negative triad **and** Ellis' ABC model to explain Farah's depression.
