INTERNATIONAL AS PSYCHOLOGY

Unit 1 Introductory Topics in Psychology

Time allowed: 1 hour 30 minutes

Materials

For this paper you must have:

- a calculator, which you are expected to use where appropriate.

Instructions

- Use black ink or black ball-point pen.
- Fill in the boxes at the top of this page.
- Answer **all** questions.
- You must answer the questions in the spaces provided. Do not write outside the box around each page or on blank pages.
- All working must be shown.
- If you need extra space for your answer(s), use the lined pages at the end of this book. Write the question number against your answer(s).
- Do all rough work in this book. Cross through any work you do not want to be marked.

Information

- The marks for questions are shown in brackets.
- The maximum mark for this paper is 90.

For Examiner's Use	
Section	Mark
A	
B	
C	
TOTAL	

Section A: MemoryAnswer **all** questions in the spaces provided.Only **one** answer per question is allowed.

For each question completely fill in the circle alongside the appropriate answer.

CORRECT METHOD

WRONG METHODS

If you want to change your answer you must cross out your original answer as shown.

If you wish to return to an answer previously crossed out, ring the answer you now wish to select as shown.

**0 1**

Which of the following parts of the working memory model controls and coordinates the other parts of the model?

Shade **one** box only.**[1 mark]****A** Central executive☐**B** Episodic buffer☐**C** Phonological loop☐**D** Visuo-spatial sketchpad☐

0	2
---	---

The multi-store model of memory consists of the sensory register, short-term memory and long-term memory.

Describe **one or more** features of the sensory register.

[4 marks]

0	3
---	---

One type of long-term memory is procedural memory.

Name **one other** type of long-term memory.

[1 mark]

---	---

Andrew takes part in a number of memory experiments. Some of these experiments test his short-term memory and others test his long-term memory.

0	4	.	1
---	---	---	---

Briefly describe the expected difference in **capacity** between Andrew's short-term memory and his long-term memory.

[3 marks]

0	4	.	2
---	---	---	---

Briefly describe the expected difference in **duration** between Andrew's short-term memory and his long-term memory.

[3 marks]

Evaluate the use of the cognitive interview as a way of enhancing the accuracy of eyewitness testimony.

This image shows a blank sheet of white paper with horizontal ruling lines. The lines are evenly spaced and extend across the width of the page. There are no margins, text, or other markings on the paper.

Turn over ►

Describe post-event discussion as a factor affecting the accuracy of eyewitness testimony.

[illegible]

Evaluate research into the accuracy of eyewitness testimony.

[illegible]

Turn over for Section B

Section B: Social PsychologyAnswer **all** questions in the spaces provided.**0 7**Name **one** variable affecting conformity that was investigated by Asch.**[1 mark]**

0 8Briefly outline **one** limitation of Asch's research into conformity.**[2 marks]**

0 9

Oliver and Sarah are taking part in an experiment with five other people. As a group, the seven people are asked to discuss how to solve a problem. Oliver's and Sarah's ideas about how to solve the problem differ from the rest of the group's ideas. However, when the experimenter asks, they both say they agree with the ideas of the group.

Each member of the group is taken into a separate room. Working alone, each person has to write down their own solution to the problem.

Oliver uses the group's ideas to solve the problem, but Sarah uses her own ideas.

0 9 . 1

Explain the type of conformity shown by Oliver in the experiment.

[3 marks]

0 9 . 2

Explain the type of conformity shown by Sarah in the experiment.

[3 marks]
